

Rules and Regulations

Task 1: Rules With The Coronavirus

Activity 1: Listening

Welcome to a practice listening for the GESE 6.

You are going to hear a talk about **rules with the coronavirus**. You will hear the talk twice. As you listen, write down some notes about what you hear, if you want to. I will ask you six questions on some facts about **rules with the coronavirus**. Are you ready?

Audio Script

It has been a complicated year and almost everybody in the world has had to adjust to new rules in order to make sure that the coronavirus did not get spread around. For example, everybody needed to wear a face mask when outside or with other people. If they wore a face mask, then they wouldn't pass or get the virus as easily. Something else is that many of the celebrations, parties and events had to be canceled to reduce the possibility of spreading the coronavirus. It has also been important to wash your hands with soap for at least twenty seconds and then use hand sanitizer. This helped reduce the virus too. It was also necessary not to lend your things, like pencils to other people and if anybody touched your things to clean it with hand sanitizer on it too. It has been really important to maintain social distance from other people as well. Finally, just in case, if you feel sick you should stay home until you are better. In this way, we can all be safer in this situation until it can be improved. Be safe!

Now I will ask you some questions. You only need to answer in a few words.

Now let's look at the questions again, but with the possible answers.

This is the end of the listening task.

Questions & Answers:

1	What did people have to wear?	face masks
2	What had to be canceled?	celebrations / parties / events
3	What do you have to use when you wash your hands?	soap / hand sanitizer
4	If anybody touches your stuff, what should you do?	use hand sanitizer on it
5	What has been important to maintain?	social distance
6	What should happen if you feel sick?	Stay home until you feel better
