

ISE II - B2 - Environment - Themed Questions - Set 1

Read the questions below and write your answers.

Example Question: Why is it important to have good study methods?

Example Answer: Many students say that the best way to study is by taking notes that are well organized. If I were a student, I would use this method in order to be able to study well later and save time. Although, other students mention that it is important to have a good place to study, like a desk or at the library, so that you can concentrate. Furthermore, I have been seeing that if I use flashcards it helps me remember what I need to learn easier.

Do you think that the environment is more of a problem nowadays than in the past? Why?

What do you think people did worse in the past for the environment than nowadays?

What do you think people do worse in the present compared to the past?
